

Meet: Ashlyn Smith

Ashlyn is currently pursuing a Master of Business Administration with Health Care Administration at the University of Southern Indiana, with an expected graduation date of December 2021.

Back in 2017, while in her undergraduate program, she started an internship with a medical billing company. Ashlyn said she did not know anything about health insurance or medical billing when she started her internship; but, as her internship progressed she wanted to continuously learn more and understand the revenue cycle to the fullest extent. This internship is what sparked her passion for Healthcare Financial Management.

Ashlyn looks forward to increasing her involvement in the Indiana HFMA Chapter. She expects her HFMA membership and certifications will help her become more knowledgeable in revenue cycle management and support her career aspirations. Upon graduation, Ashlyn will pursue her CPA certificate and a position that will start her on the way to achieving her long-term goal of becoming a CFO of a hospital or private practice.

In her spare time, Ashlyn enjoys relaxing and catching-up with family and friends.
